Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-2 and 6-27 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The limitations directed to “users” transcend the otherwise statutory claims to a nonstatutory construct. System claims comprising limitations directed to a user operating the system are directed to more than one statutory class. System claims may never be directed to more than one statutory class. The system claims, to be statutory, may only comprise system components.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

1. Claims 1-2, 5-28 are rejected under 35 U.S.C. 102(a) as being by Buchalter, US Statutory Invention Registration, H2064.

The reference teaches (A) *storage means for collecting from multiple sources, storing, end updating and displaying over-the-counter fixed income over the counter market prices in real-time*; (col. 6, ll. 4-8, 14-24, figures 1-3) (B) *controller means for accessing and updating data stored in said storage means in real-time* (col. 6, ll. 4-8, 14-24,

figures 1-3) (C) data terminal means coupled to said controller means for linking said controller means to external data sources or users, for receiving or transmitting data to said storage means, wherein users may access or query said storage means for securities market data, and wherein the data terminal means enables a user may !.g review simultaneously securities market data for a single security or bond obtained from said query that originate from a plurality of the multiple sources. (col. 6, ll. 4-8, 14-24, figures 1-3) .

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
